Sir,

Panchayats - Forests - Katipalla Kadu - Iddya and
Kuthethoor villages - Mangalore Taluk - Disreservation.

A portion of S.No.40/1 of Kuthethoor village standing registered as Katipalla forest panchayat poramboke was encroached upon by the owner of S.Nos.40/2, 10 & 10B about 12 years ago, but detected recently. The encroachment is denoted as 40/1B in the sketch enclosed. It consists of a 'Tulasi katte', a portion of a pillar of wall standing in S.No.40/2, 2 cocoanut plants, two papaya trees, a hongarka tree and some hakkal cultivation. It also contains the foundation of the new yard of the encroacher's house in S.No.40/2. The Tahsildar who inspected the encroachment recommends that it may be disreserved, as the boundary of the forest at this part is irregular and can be straightened by excluding the encroached portion. I therefore recommend that the encroached portion may be disreserved. The land proposed to be disreserved is not valuable.

for 3.5 mtr

Draft notification in English and Kanarese are enclosed.

A sketch of the forest is also submitted.

Please see the C.M.'s letter at P. 1 et.

2. The total area of the reserve is Ac. 3. 24
The area of the puthi to be disreserved is only 27 cents
viz notification at P. 3 et. The C.M. reports that the land
valuable and it contains only a puthi of a pillar of
standing in S. No. 40/2, has coconut plants, has palm
trees, a bangara tree and some kakka cultivation.

3. The only reason given for the disreservation
of the plot is that the boundary of the reserve is now wrong
and that it can be straightened by exchanging the plot.
C.M. has not however stated ^{the} ~~as to what~~ purpose ^{for which} the land is
used after disreservation and whether it would be assigned to the
encroacher and if so on what terms. It has not also been
stated whether the Panchayat was consulted on the question
of the exchange of land from the Panchayat. The C.M. may
perhaps, be asked to report

that the land is not valuable and that the proposed

disreservation ~~is necessary~~ ^{would} to strengthen the boundary

The land would be assigned to the encroacher

the Board would agree to the disreservation of the area.
